

**HIS**  
Logística Internacional

# About US

We are a Brazilian company that has been operating in the market since 1999. Since then, our company has been growing and consolidating itself as a strong logistics operator and we are already present in more than 120 countries, focused on full container sea, air and road shipments, both in import and export.

Our focus is to develop a solid commercial relationship with all customers, contributing to the growth of the entire logistics chain, with a strong impact on results.

Over the years, we have understood that to maintain quality and structure, it is necessary to establish important investments with a common focus for the entire team. Our growth strategy defines the principles for the sustainable success of HIS, contributing to the benefit of all employees and customers, who are truly responsible for our entire journey so far.
